EDUCATION

Sai Gon University June 2024

Software technology *Current GPA: 2.8/4.0*

COURSEWORK

Courses: Object-Oriented Programming, Data Structures & Algorithms, Discrete Math, Linear Algebra, Calculus, Physics, , Programming Techniques, Probability & Statistics

SKILLS

Languages: C Sharp, Python, Java, JavaScript, HTML/CSS, PHP
Tools: Git/GitHub, VS Code
Frameworks: React, Node.js, Flask

PROJECTS

E-commerce site | *PHP, HTML/CSS, Git, VS Code* Oct. 2023
- Learn about project development according to the MVC model
- Design database locally

Water sales management software | *C Sharp, Git, Visual Studio 2022* Nov. 2023
- Merchandise management: This is an important function to track the amount of water in the warehouse, product information such as price, production date/expiry date.
- The software has been packaged and put into practice for small cafes to apply

Online shooting game | *Python3, Socket, Git, VS Code* Feb 2024 – Present
- Developed software for playing multiplayer games on the internet
- Integrate cloud databases to perform real-time functions

Chat Real-time | *JavaScript, NodeJS, React, MongoDB, Socket, Git, VS Code* Feb. 2024 – Present
- Integrate MongoDB data for server and login usage
- Socket.io and Node.js allow direct communication between the server and the user without having to reload the page. This creates a smooth and real-time user experience, which is great for chat applications

EXPERIENCE

WinMart store | *Sales agent* Jan. 2024 – Present
Learn many soft skills in communicating with customers

HOBBIES

Sports also with friends 2013 – Present
Played shuttlecock kicking

Play fighting games with high strategy 2021 – Present
Played League of Legends, Honkai Star Rail, Genshin Impact
